How Networkfleet™ Works

Networkfleet™ is installed in each of your vehicles.

Each vehicle transmits information over a wireless network.

Vehicle diagnostics and location information are accessible through your secure fleet website.

Remote Diagnostics

Reduce vehicle downtime and increase fuel efficiency.

With multiple patents surrounding remote vehicle diagnostics, Networkfleet™ is the only solution that automatically notifies you if one of your vehicles reports a diagnostic trouble code (DTC) or is due for normal maintenance. Reduce repair costs and downtime by catching problems early and eliminating manual processes.

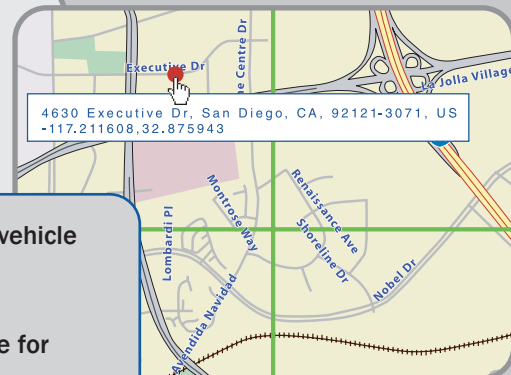

- Automated Meter Readings**
Access real-time vehicle mileage
- Problem Alerts**
Get immediate DTC alerts via email when a problem is detected
- Maintenance Reminders**
Receive mileage-based scheduled maintenance alerts via email
- No-cost remote smog inspection program (CA)**
Reduce downtime and cost associated with physical testing

Safety and Security Services

Protect your vehicles in case of theft or breakdown.

When you install Networkfleet™ on your vehicles, you will receive nationwide stolen vehicle recovery and roadside assistance at no additional cost. Included services are towing, fuel delivery, locksmith, flat repair and battery boost.

- Nationwide stolen vehicle recovery**
- Complete roadside assistance package for light vehicles**
- Insurance Discount (Anti-theft device)**

Contact us to learn more or to schedule a live demonstration.
